

TorchLight Partners with Cisco for Turnkey Cybersecurity Services

TorchLight is a new Cisco Select Provider and MSSP Partner, entitling the company to sell the entire Cisco line of products.

SPOKANE, Washington— Nov. 03, 2021 –TorchLight, a cybersecurity provider, announced today it has partnered with Cisco, becoming a Cisco Select Partner to deliver turnkey cybersecurity solutions using Cisco Umbrella and other security products.

[TorchLight announced](#) it is launching a new Cisco-based Ransomware Defense Architecture (RDA) and Managed, Detection & Response (MDR) services at the Channel Partner Conference and Expo in Las Vegas, NV. Cisco will be represented in the TorchLight booth (#1270) at the conference.

TorchLight is the industry's first complete security solution provider (CSSP) designing, building and managing cybersecurity solutions through its consulting, security system resale and the managed security services provider (MSSP) capabilities. As a Cisco Select and MSSP Partner, TorchLight will utilize a suite of MDR, RDA, and other cloud-based security services that provides secure access to the internet and includes secure web gateway, firewall, and cloud access security broker (CASB) functionality.

"Our uniquely differentiated CSSP business model emphasizes a focus on understanding a company's business and information needs relative to risk. This starts us down the right path toward providing a customized protection solution that we can then build and manage with them," said Bo Wheeler, Chief Revenue Officer at TorchLight. "Partnering with Cisco enables TorchLight to leverage their threat intelligence tool (*Talos*) and security software suites to deliver customized managed solutions for our clients."

“TorchLight’s CSSP model is unique and sells security solutions bundled to solve specific challenges like ransomware. Cisco has pioneered this solution-based approach and looks forward to working with a like-minded partner,” said Ryan Bondi-Lynch at Cisco. “We welcome TorchLight to the Cisco solution provider family.”

TorchLight’s internal Cisco technical resources are extensive, including 12 different staff certifications. Some of these include Cisco certified Security Solution Architects and System Field Engineers with CCNA, Cisco Fire Jumper Stage 1, Cisco SNAP and more.

About TorchLight

TorchLight is a new nationwide complete security solutions provider (CSSP) spun out of the security operations of Intrinium, an IT services provider founded in 2007. The company designs and manages cybersecurity solution to assist organizations in defending against business risks. As a CSSP, TorchLight designs, builds, and manages cybersecurity systems through a full range of consulting, reselling, and managed security service provider (MSSP) services. From its security operations center (SOC), the company offers 24/7 cyber risk monitoring and management.
